

Garmin G500 TXi Retrofit Upgrade

Wisconsin Aviation's Customized Upgrade Packages

Platinum Upgrade

Dual 10.6" G500 TXi flight deck system, GTN 750Xi/GTN 650Xi combo, GFC 500 2-axis with yaw damper autopilot system

All the benefits of the Silver upgrade package and the dual 10.6" displays with the reliability of Garmin's GFC-500 autopilot system coupled with the GI-275 standby indicator. This replaces your old, tired servos with top-of-the-line replacement servos and provides digital communication for unbelievably smooth maneuvers.

Gold Upgrade

Dual 10.6" G500 TXi flight deck system, GTN 750Xi/GTN 650Xi combo

All the benefits of the Bronze upgrade package with the addition of dual G500 TXi displays to replace Avidyne PFD/MFD EX5000 display system with synthetic vision. This includes a new instrument panel that can be powder-coated with screen printing or a custom overlay.

Silver Upgrade

GTN 750Xi/GTN 650Xi combo with GFC 500 3-axis autopilot

All the benefits of the Bronze upgrade package with the addition of the GFC-500 digital autopilot and a GI-275 to be installed as the controller for the GFC-500 and standby instrumentation. This includes the removal of the existing S-TEC autopilot system.

Bronze Upgrade

GTN 750Xi/GTN 650Xi combo

Includes remotely mounted GTX-345R, GMA-35C, and Flight Stream 510. This package will remove your Garmin GNS 430s, Garmin GTX327 transponder, and your old audio panel and replace them with a new Garmin GTN 750Xi, GTN 650Xi, remote GTX345R ADS-B In/Out digital transponder, and remote GMA 35C stereo audio panel.

Smooth Air Upgrade (2 axis or 2 axis with yaw damper)

GFC 500 autopilot system coupled with the GI 275 standby indicator

This replaces your old, tired servos with top-of-the-line replacement servos and provides digital communication for unbelievably smooth maneuvers.
